

GAIN-SHARING AUTOMIXERS

Easy to use, simply adjust the volume. More mics with less feedback.

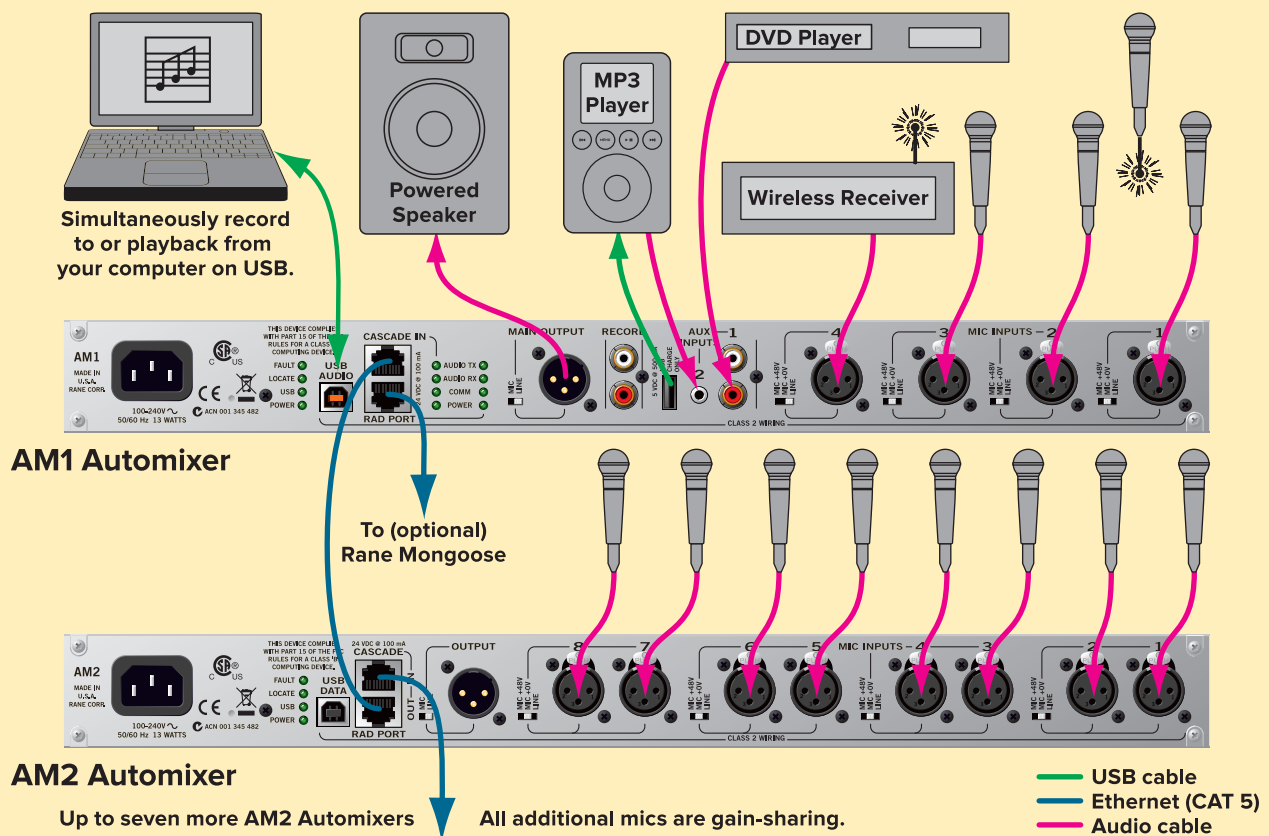

Rane AM1 four-channel gain-sharing automixer with line and USB audio inputs

Rane AM2 eight-channel gain-sharing cascadable automixer

The Rane AM1 and AM2 may be used individually, or cascaded for a maximum of 64 channels.

- The AM1 works as a USB sound card with audio recording and playback.
- The USB charge port provides power for portable devices.
- The AM1 and AM2 are RADs, connectable to a Rane Mongoose via CAT 5.
