# BAD FIRMWARE TIMING

WARNING
Your Blu-ray Player requires an update in order to play this disc.

Please visit your Blu-ray Player manufacturer's website and
follow their instructions to update your Blu-ray Player.
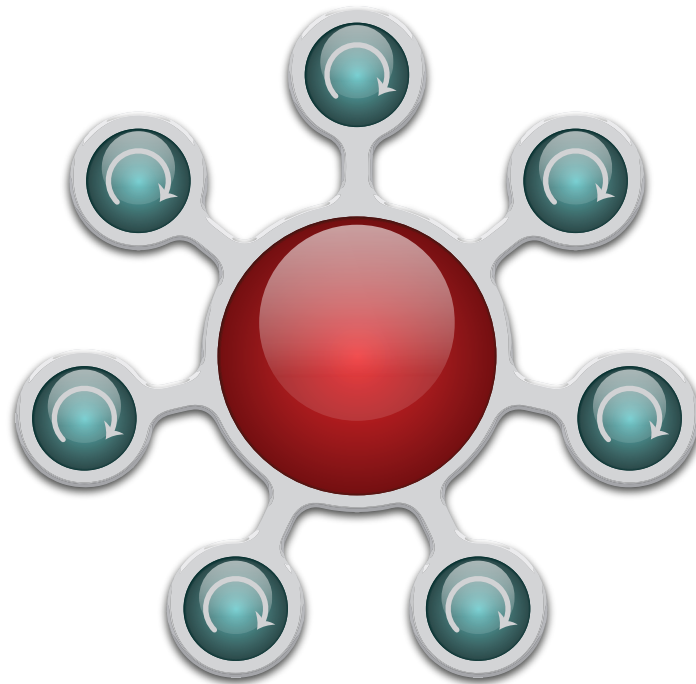

Does your DSP ever do this?

# Automatic Firmware Compatibility

Plug it in; it works:
• Without DHCP; without IP addresses.
• Even with IT ports blocked, or with tomorrow's Ethernet switches.

Mix old & new stock — it won't matter.

HAL auto matches its devices with compatible firmware, in seconds. No PC required.

Installers can run every version of Halogen ever — one at a time.
